

Product Specification

Thermobond welding plates

The Thermobond Washers are unique for mechanical fixation of Prelasti S and FR rubber membranes and developed from the patented Thermobond technology. The washers should be applied according to valid wind load design.

Technische Daten

Material: Galvanized steel, 15 cycles Kesternich laminated with Thermobond.

Width (mm)	Thickness (mm)	Screw hole (mm)	Weight (kg/pcs.)	Package (pcs)
80	0.7	6.5	0.03	500
80	0.7	16	0.03	500

Installation

All Thermobond Washers are welded with adapted induction equipment. Perform testwelding according to instructions. Settings and use of equipment is explained in the Prelasti manual. Use the appropriate fastener for substrate and washer.

Storage

Store cool and dry in the original packaging. There are no limitations in shelf life. Thermobond Washers are only available from SealEco.
